ITURBI PLAYS FOR ENTHUSED HILL AUDIENCE

Varied Program Is Offered By Distinguished Artist In Second Concert

RESPONDS TO APPLAUSE

All Available Seats Taken for Recital of Spanish Pianist

Jose Iturbi, renowned Spanish pianist, revealed for the second time to a Hill audience his consummate artistry when he played in the Chapel Wednesday evening under the auspices of the Musical Art Society. Nearly every available seat was taken and the famous pianist was forced to respond time after time to spontaneous applause.

It would be almost impossible to say what numbers of the first group were enjoyed most by the audience. Probably the favorites were the "Etudes Symphoniques" of Schumann and the stirringly beautiful "Polonaise in A flat" of Chopin. Intricate though these two numbers are, Iturbi handled both with the greatest ease and precision. Chopin's "Waltz" and two of his Etudes were also delightfully rendered. Another number was the pleasing and formal "Sonata in E Minor" of Haydn.

Number Dedicated to Iturbi

The second group consisted of two Brahms numbers and several modern works, mostly Spanish. After the vigorous "Rhapsody in G Minor" Iturbi offered "El Abaicin," which was the better of the two selections. This number from the suite "Iberia" is of descriptive nature. The title refers to the Gypsy quarter near the city of Grenada.

There seems to have been no other reason for including Infante's "El Vito" on the program than that it was dedicated to Iturbi by the composer. It is not of any great musical importance. Iturbi's rendition of this number was, as always, the height of perfection.

After acknowledging the prolonged applause, Iturbi responded with two encores. These were Balakireff's "Islamey" and Debussy's "L' Ile Joyeuse," which ranks among the composer's best works.

Entertained by Prof. Fancher

Iturbi's program of last year was the finest offering of the Musical Art Society. Now his amazing technic is even finer and his inter-

(Continued on Page Four)

AMES TO SPEAK HERE SATURDAY

League of Nations Official to Address Political Science Club

Sir Herbert Brown Ames, first Financial Director of the League of Nations, will speak before the members of the Political Science Club Saturday evening at 7:30 o'clock at the Delta Kappa Epsilon House. Sir Herbert will come to the Hill following an address delivered before the International Relations Study Club of Utica at the Hotel Martin.

Sir Herbert will speak on his experiences as an International Treasurer. He was on the original staff of the League of Nations in 1920, when the organization was set up and in 1923 he became its first Financial Director, holding this position for six or seven years.

Sir Herbert was born in Montreal and was educated there and at Amherst. He served as Alderman of Montreal and as Public Health Officer and has been a member of both the Canadian and British Parliaments. In 1915 he was knighted by the King of England. He has written various books on political and economic subjects.

At the present time Sir Herbert is lecturing at the various universities of the country, speaking on the League of Nations. He has travelled very widely and is well versed in international affairs.

A dinner will be held for Sir Herbert at the Delta Kappa Epsilon house Saturday evening. Following this the meeting will be called at 7:30 and Sir Herbert will speak informally to the members of the Political Science Club and those interested in the League of Nations.

Red Cross Drive Will Be Held On Hill

Members of the Inter-fraternity Council will act as representatives for the Red Cross drive to be held this week. A special effort is being made this year to break all previous records as Hamilton. The committee has set three hundred dollars as it goal.

Membership buttons will be sold for a dollar, the drive beginning tonight and lasting until Saturday noon. Rodney Gibson, '31, is in charge of the drive among the students while Mrs. Ira Prettyman will canvas the faculty.

CONSECRATE HILL ALUMNUS BISHOP

Elaborate Ceremony Held In Cathedral of St. John The Divine

The Rev. Dr. Charles K. Gilbert, '02, was consecrated recently in the Cathedral of St. John The Divine as Suffragan Bishop of the Protestant Episcopal Diocese of New York. Twelve Bishops participated in the elaborate ceremony.

Bishop William T. Manning, who delivered the sermon, spoke highly of Dr. Gilbert's work as a minister of the gospel, laying important stress on his wide sympathy and deep interest in questions of social righteousness and human welfare.

In welcoming Dr. Gilbert, Bishop Manning said, "With full trust and true affection, I welcome you to your place as Suffragan Bishop and to your share in the life and work of this great diocese. Help me to make our work in this diocese a more living power for Christ."

The ceremony was preceded by a procession of robed Bishops, clergymen, the choir and lay officials of the Diocese. During the rital of consecration which followed, twelve Bishops surrounded the kneeling Bishop-elect and laid their hands upon his head while the "Veni Creator Spiritus," was sung antiphonally after he had been robed in the the Episcopal habit.

Later in the ceremony, a pectoral cross was hung about his neck, an Episcopal ring placed on his finger and a Bible put in his hand. The consecrating prelate was the Right Rev. James De Wolf Perry Bishop of the Episcopal Church and Bishop of Rhode Island.

The ceremony which was held in the completed section of the nave, was attended by 180 clergymen of the diocese about 50 from other dioceses and more than twenty ministers of denominational churches, the latter especially invited as personal friends of Dr. Gilbert. Admission was by invitation.

Born at Bainbridge, New York, August 6, 1887, Dr. Gilbert was graduated from Hamilton in the class of 1902. He received his training for the church at the General Episcopal Theological Seminary, Chelsla Square.

Dr. Gilbert was elected to the office last May, being chosen as a candidate of the liberal group in the diocese. He had been its secretary for 14 years.

His son Frederick D. H. Gilbert, '28, is a student at the Harvard Law School.

TWENTY-SIX RELIGIOUS GROUPS ARE REPRESENTED IN COLLEGE

Investigation Conducted By Life Justifies Contention That College Is Non-Sectarian; More Than One-Fourth of Students Are Presbyterians

(By William A. Monacelli, '32)

Justification for the contention that Hamilton College is non-sectarian is given by the results of an investigation into the various religions proclaimed by 454 undergraduates. Twenty-six religious groups are represented on the Hill, the Presbyterian, Episcopal, Catholic, Methodist and Congregational Churches being, respectively, the most popular among the undergraduate members of the College.

The Presbyterian Church heads the list with 124 members, more than one-fourth of the enrollment of the College. The Episcopals are second with 77 representatives here, while the Roman Catholic Church ranks a close third with 63 followers on the Hill. Close behind are the 59 Methodists, while a drop is then taken to fifth place, which is held by 33 Congregationalists. The only other denominations with more than five members on the Hill are the Reformed, 18; Baptist, 17; Jewish, 14; Lutheran, 8, and Dutch Reformed, 6. The remaining 18 groups are represented here by 1, 2 or 3 followers.

Comparison By Classes

A consideration of the religious affiliations by classes shows almost the same results. There are 10 religions represented by the seniors, 11 by the juniors, 16 by the sophomores, and 20 by the freshmen. Naturally, because of their superior numbers, the freshmen lead in most of the denominational groups. Yet the percentage obtained by considering the ratio of the members of a church in a class to the total enrollment of that class shows a decided contrast.

While there are 30 Presbyterians in the class of 1931 and 35 in the clas of 1934, the described percentage in the former is about 40 but that in the latter is only 22. The sophomore percentage is 25 and the junior is 30, with 34 of the Class of 1933 and 25 of the Class of 1932 as members of the Presbyterian faith.

The Episcopal Church, with 17 seniors, 14 juniors, 20 sophomores and 26 freshmen among its membership, contributes approximately 18 per cent of the undergraduates on the Hill, while the Catholic Church has eight fourth year men, 16 third, 17 second, and 22 first year men, for a percentage of 16. The Methodist and Congregational churches, having, respectively, 5-12-24-18 and 5-8-10-10 in the classes as given in the order above, have the percentages 8 and 4.

The senior, sophomore and freshman classes each have exclusive representation in several churches. The Class of 1931 contains the only Swedenborgian and the only

CAPTAIN FARMER ADDRESSES CLUB

Speaks to Political Science Students On Situation In Russia

Speaking on "Russia" from the standpoint of a traveler, Captain James Farmer was the feature of the meeting of the Political Science Club held Monday evening at the Sigma Phi Place.

Captain Farmer stressed the fact that the Russians want American moral support, and are willing to make allowances for travelers which would not be granted to natives under any circumstances. The Communist government maintains a system of guides for visitors, and each traveler is assigned to a guide when he enters the country. It is the duty of these men to act as censors and to prevent the foreigner from saying or doing anything which might turn the Russians against the Communist government.

Another group of men and women act as spies and nurses, and it is their duty to watch and report everything that goes on. Any act which is not in accordance with the principles of Communism is thus brought to light, and the offender is then punished. The Russians live in constant terror under this tyrannical government, for it is very common for men and women to be shot for slight offenses.

Russia does a large exporting business, the speaker declared, but its commercial methods are very primitive. Much unnecessary time and labor is consumed because it

(Continued on Page Four)

PRITCHARD TO HEAD JUNIORS

Captain of Cross-Country Receives Honor On First Ballot

Only two ballots were needed for the election of Walter H. Pritchard as president and Charles S. Estabrook as vice-president of the junior class. In the ballot taken Thursday, Pritchard defeated John B. Bartram, Charles Estabrook and Edward V . Gross, the other three candidates. Friday, Estabrook was elected over Donald M. Cunningham, the only other nominee.

The first ballot for the election of a secretary resulted in the elimination of Jack W. Hummer. Another ballot taken elected John J. Walsh over Donald Cunningham.

Pritchard is captain of cross-country and a three-letter man, having been awarded a letter in basketball, cross-country and track. He is a member of Delta Kappa Epsilon fraternity and of Quadrangle, D. T., and Was Los.

Estabrook is a member of Chi Psi fraternity and a letter man in football. He is also a member of Quadrangle, D. T., and Was Los.

Walsh is a member of the Emerson Literary Society, of the Charlatans, Debating Team, and secretary of the Political Science Club.

Hamiltonian Receives Honor Rating in Survey of College Year Books

Due distinction was given to the Hamilton College "Hamiltonian" when the National Scholastic Press Association of Minnesota rated the 1931 issue in the second class honor rating in its tenth annual critical survey of collegiate year books.

Classified in the group of colleges and universities with enrollments of 500 or less, the Hamilton year book received a total of 830 points out of a possible total of 1,000. Nine topics were taken into consideration, covering the sections of the various year books in the survey.

The 1931 "Hamiltonian" rated perfection in two sections—that of the organizations and that of financial status, receiving 25 and 50 points respectively for these de-

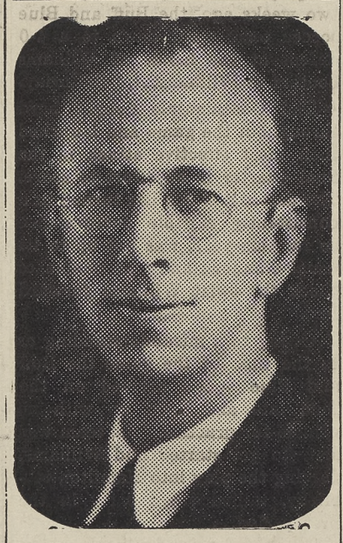
In Utica Play



WALLACE B. JOHNSON, '15

HAVE ROLES IN "ROYAL FAMILY"

Johnson, '15, and Cutter, '29, Appear In Performance Of Utica Players

Two of Hamilton's alumni were members of the cast of "The Royal Family," when that play was presented Tuesday night by The Players of Utica. Wallace B. Johnson, '15, and Palmer Cutter, '29, took part in the presentation which was very well received by the audience.

Concerning the part played by "Wally" Johnson the Utica Press says, "Mr. Johnson, club president, gave his usually excellent performance as Oscar Wolfe." Palmer Cutter took the part of a Hallboy.

M. Jean Gelas of the Physical Education department assisted in the instruction of the cast, coaching two of the players who engaged in fencing in one of the sceenes.

STUDENTS OBSERVE METHODS OF ELECTION

Undergraduates of Political Science Department Visit Polls

A group of students from the Political Science 1-2, course, interested in the practical workings of politics visited Utica polls yesterday, to observe manners of conducting elections in a large city. Professor Laves obtained tickets which permitted the students to be present officially as "watchers" of the process of casting and tabulating votes.

The students were allowed to choose polling places, and were able to be present as either Republican, Democratic, or Socialist representatives.

CLASSES BEGUN IN STUDY OF GRAPHIC ART

Six-Week Course in Art 3-4 Under Edward Root Gets Under Way

The course in Art 3-4, under the direction of Edward Wales Root, started Monday to study graphic art for a 12-week period.

This course, which was discontinued last year due to the absence of Mr. Root on account of illness, is one of the more popular brief courses. It gives two hours of credit for a year's work, which is done in a 12-week period, evenly divided each semester.

The class is held in Mr. Root's private studio in the rear of his home and is open at all times to art students.

LAST PERIOD TOUCHDOWN AND STRONG DEFENSE ENABLES HILL TEAM TO TIE SUSQUEHANNA U.

Buff and Blue Gridders Come From Behind To Even Count In Fourth Quarter and Repel Scoring Attempts of Hard-Fighting Susquehanna Eleven

Overcoming Susquehanna University's early lead to tie the score at 7-7 in the final period, the Buff and Blue football team turned back the Pennsylvanians' desperate last minute attack to gain a hard-earned tie verdict on the Hill Saturday. The Continentals held for seven downs within the 3-yard line to repulse the fierce offensive of the heavier eleven in the closing minutes of play.

Susquehanna, with its hard-running backs, big line, and brilliant kicker, took the offensive immediately after Hamilton kicked off. After a gain of five yards, Moser, offensive star of the game, ran 25 yards for a first down. Meyers added seven yards to the Orange and Maroon advance and Moser completed the necessary ten yards. Jack Wilson nabbed Meyers for a four yard loss on the next play.

SUSQUEHANNA SCORES EARLY IN FIRST PERIOD

Glenn attempted a long pass to Adams but the play failed and Susquehanna elected to punt from Hamilton's 37-yard line. Glenn kicked outside on the 5-yard line. Two Hamilton plays were fruitless and DeSormo sent up a short punt which the visitors downed on the 20-yard line. Meyers and Glenn accounted for seven yards and Moser smashed through to the Hamilton 7-yard line for a first down. In two plays the big Susquehanna fullback went over for the touchdown. Moser kicked the extra point from placement.

Hamilton kicked off and the teams made several exchange of punts during the latter part of the second quarter, with Susquehanna having the advantage in kicking. The Hamilton defense slowed up the visiting backfield considerably, however, and the the Selinsgrove team made no more first downs in that period.

Morris Returns to Line-up

The second quarter saw the return to the Hamilton line-up of "Bill" Morris who had been absent since the first quarter of the Alfred game. Morris stimulated the Buff and Blue running attack considerably. Hamilton made three first downs in this period but was set back by a 15-yard penalty and then made two more first downs by passing but without results. Meyers intercepted a pass on the 37-yard line and carried the ball to mid-field when the half ended.

Susquehanna kicked off to open the second half and Hamilton came back with a sparkling offense. Rienzo ran the kick-off back 40 yards to midfield and Morris, in two attempts, made a first down. Rishel broke up the advance by intercepting a pass and running nearly 50 yards to Hamilton's 20-yard line. Hamilton held for downs and Kingsley punted out of danger. Glenn punted back in two plays and Hamilton again kicked. Rishel made a first down but Hamilton finally held and Susquehanna was forced to punt again. Hamilton then reeled off three first downs to put the ball on the visitors' 40-yard line.

Fourth Quarter Exciting

More action and excitement were packed into the fourth quarter than in most of the other home games this season. Hamilton punted after failing to gain on rushes and a pass. Susquehanna also punted and Crowley returned the ball 21 yards. After two line

LAMDA XI SET FOR INSTALLATION

Local Fraternity to Join Tau Kappa Epsilon On November 22

Lamda Xi Sigma, local fraternity will be installed as the Alpha Iota chapter of Tau Kappa Epsilon on Saturday, November 22 at 10 a. m., according to recent announcement made by Thomas R. Crane, '31, president of the active chapter. The installation ceremony will be preceded by two days of tests and lectures conducted by the installation team of five representaitves from the national organization.

A reception for members of the faculty and representatives of all Hamilton fraternities will be held Thursday night. On Friday evening a closed formal dance wil be given, and on Saturday night a banquet will be held at the Hotel Martin. Initiate members, faculty, and representatives from other fraternities will attend the dinner.

Preparations are being made for the accommodation of approximately twenty- five alumni who are returning to join the national fraternity along with the undergraduate members of the organization. Those returning Thursday and staying through the week-end will become charter members.

The Lamda Xi's will become the 33rd chapter in the Teke fraternity, while the 34th will be installed two or three weeks later when Alpha Pi Epsilon at the University of Pennsylvania will be initiated. Eastern chapters of this organization are found at Cornell and Rutgers.

CROSS-COUNTRY SEASON TO END

Harriers Will Compete for Conference Title At Rochester

Saturday will mark the close of the cross-country season when the team again journeys to Rochester to engage in the annual Conference Meet, where teams representing Alfred, Hobart, Rochester, and Hamilton will compete for the Conference title. Alfred has held this title practically every year since this meet was inaugurated, and there seems but little likelihood that she will be displaced this year.

Alfred is considered to have a very strong team this year and has a rather impressive record to date. In a triangular meet held two weeks ago between Alfred, Wliliams and St. Stephens, Alfred placed five men before either of the other colleges scored a place.

Hobart stands with a balanced record of victories over Hamilton and Rochester, and losses to Colgate and Syracuse. Rochester has not won a meet this year.

Hamilton's record shows wins over St. Stephens and Rochester and a 25-30 defeat at the hands of Hobart. With Pritchard running and Poppee in shape, however, it would seem that the Continentals might have faired better against Hobart, and that they may have a slight edge over their erstwhile conquerors when the respective teams line up Saturday.

Saturday will find Walter Pritchard , the Continental captain, defending the title which he won last year. It seems that no Hobart or Rochester runner will furnish him with any great opposition, but little is known about the individual Alfred runners and perhaps Saturday may uncover an opponent for the man who thus far ruled supreme throughout his intercollegiate career.

Modern Equipment Puts Improved Chemical Laboratory Among Best In Smaller Colleges

With an equipment as complete and extensive as any found in a chemical laboratory of a college the size of Hamilton, the new Chemistry Building constitutes a major addition to the facilities of the college. Its modern features will allow for more intensive laboratory research than has hitherto been possible.

The outstanding features of the new building are to be found in the excellent ventilation and adequate spacing. The largest lecture room which has a seating capacity of 118 is built in the form of an ampitheather. Up to the present time, the acoustics of the room have been faulty in that there are disturbing echos. Arrangements are being made, however, to correct this defect. In addition to this lecture room which is the largest in the college, there is a smaller one with a capacity of 40 men and two well lighted balance rooms leading off the analytical and beginner's laboratories.

The laboratories proper are three in number with approximate dimensions of 40 by 50 feet. They vary in equipment according to the nature of the work for which they were designated. There is also one smaller laboratory for physical chemistry, two private labs and a preparation room off the main lecture room.

Gas Container to Be Efficinet

The desks are manufactured from alberene stone, a natural silicate rock which is nearly indestructible to all attacks of acids. All the desks are equipped with gas, water and air blasts and those in the organic laboratory with steam at high pressure. Direct and alternating current is wired into all laboratories, thus facilitating experimentation which was almost completely impossible in the old building.

(Continued on Page Four)

Research Into Library Records Results In Valuable Information for Summer Visitors

(By William A. Monacelli, '32)

Valuable information was found on the Hill by several research men who visited the Hamilton College Library during the past summer. Besides the calls from nearby scholars who are writing on local history, the Library received visits from E. J. Hendrie of Middlebury, Vt., D. E. Lennox of Chicago, and General John M. Palmer of Washington, D. C.

Mr. Hendrie, who is connected with Middlebury College, was on the Hill for three and a half days in July, investigating the papers of Dr. Henry Davis, a former president of Hamilton College. Mr. Hendrie is working on a history of Middlebury and came to the College Library in an effort to secure valuable facts which he had not been able to get before his arrival here.

Mr. Hendrie found, in the Library, considerable information concerning Middlebury College, from the papers of Dr. Davis. Ex-President Davis came to Hamilton College from the presidency of Middlebury College in 1818, in preference to the presidency of Yale University, which he was offered at the same time.

To Write Life of Kirkland

Mr. Lennox, of the University of Chicago, spent the first two weeks of September at the Library in search of information which he might use in his "History of the Oneida Indians." He had been looking for this same material in libraries in Albany, New York City and Chicago, but he found more original information in the various Kirkland papers here than he could find in all the other libraries. He found so much desirable material that he remained on the Hill for two full weeks instead of two days as he first intended.

WHEN YOU LEAVE CHAPEL

Most campus traditions have gone the long road, but there is one that still remains and deserves to continue. It is the recognition of class order in leaving Chapel. There has grown up in society along with civilization a certain deference to seniority. It is a rather becoming, considerable custom. There has likewise grown up on the campus along with the college a deference to class order. Essentially the two are the same. Both constitute one of the amenities that make life sweeter and tradition richer.

Of late this venerable custom has been observed in the breach, for faculty members and seniors have found themselves crowded to the background as the lower classes struggle to make the door after Chapel services are over. The courtesy of former days in allowing the faculty and the classes to go out in order of seniority has been neglected. Juniors slip out from their seats into the ranks of the seniors; sophomores worm their way out of Chapel along with the members of the faculty and the upper classes. There is no observance shown to article four of the General Underclass Regulations which specifically requires that "Sophomores must yield precedence to upperclassmen on the campus and upon entering and leaving all buildings."

Of course there is no elaborate machinery for enforcing this regulation. In fact it is not so much conceived of as a regulation as it is a custom. Any enforcement which the custom has must come from the student body. A kindly deference to the upperclasses is not something to exact by force. In its essence the act is a gentlemanly thing, quite apart from the rudeness of the wild scrambles which have recently convulsed the center aisle after Morning Chapel.

Good manners are never localized. Respect, courtesy and deference should not be confined merely to the dinner table and the drawing room. We trust that the deviation from class order in leaving Chapel is but an inadvertent slip from grace. Inadeverent or not the custom must be maintained, and the measures of its observance will be but an index of the good manners and cooperative spirit of the four classes.

GET YOUR PLEDGE BUTTON

Nobody knows better than a college man all the demands that are made upon him for money. Everything from text books in Greek Art to initiation fees for Delta Sigma Rho assails the pocketbook of the undergraduate. There is seldom an interest, however, that is so deserving of financial support as the annual drives of the American Red Cross.

Beginning today and continuing throughout the rest of the week subscriptions for membership in the Red Cross will be solicited upon the campus. For doing real service a dollar given to this humanitarian institution cannot be spent more wisely. As a testimony of intelligent generosity there is none more effective than a little red and white button on the coat lapel. Let the Red Cross pledge you up.

DULL GOLD

The easiest way to criticize an organization is to do so without any knowledge of it. Many of us have been wearied by reading unfounded criticisms of our Freshman Honorary Society, and it is our hope that this "sewing circle" of "debunkers" may take our advice and "gracefully slip back into the limbo of defunct societies!"

The Quadrangle Club was founded by the class of 1928. The purpose of the organization was not to furnish 20 freshmen the opportunity of showing off their keys, but to definitely create a spirit among the members of the freshman class. Election to Quadrangle is not considered a great honor by those who receive it. On the other hand it has its significance in that it is the first recognition of merit that the freshmen receive.

Those who are in opposition to Quadrangle say that the members are chosen without regard to merit, and, furthermore, that it is impossible to tell anything about the freshmen at such an early date in their careers in college. If this were so, then all of the sophomore delegations in Quadrangle have been blessed with unheard of powers of foresight. It is only necessary to consider the members of our other honorary societies to see that the majority of them have been members of our Freshman Honorary Society. To be more specific, four members of Pentagon this year were all members of Quadrangle in their freshman year. Can we attribute this fact to chance?

We hear also that dissolving Quadrangle will be for the best interests of the College. If those who oppose this society still consider it an artificial organization, we present another justification. We believe that election to Quadrangle is an incentive to further activity. If members are elected without merit, then a contribution is still being made to the welfare of the College, for 20 freshmen are made to realize that they count, that their attitude should be unselfish, and that the College looks to them for greater things. Every organization honorary or otherwise, has its history the blemish of a few unfortunate choices, but we believe that Quadrangle has justified its existence through the progress of those who have been elected to it in the past.

The activities of Quadrangle may not be evident to those outside of the organization, but we believe that it is truly worthy of a place among Hamilton honorary societies. It may not glitter, but it is true gold, and those of us who are vitally interested in the welfare of Hamilton wish to speak a word in its favor C. A. L., '32.

HILL BOOTERS LOSE TO WILLIAMS

Buff and Blue Final Attack Fails to Penetrate Stiff Defense

Failing to keep up the standard of play shown against Syracuse two weeks ago, the Buff and Blue soccer team went down to a 4-0 defeat at the hands of Williams booters at Williamstown Saturday.

The Continentals fought hard throughout the game and launched their most effective attack in the final quarter in an effort to score. The defense, which has turned in a consistently capable performance so far this year, was not up to its usual standard and was unable to check the swift Williams forward line.

Owing to a misunderstanding as to the time of the game the Buff and Blue squad arrived on the field late and lined up with no chance for practice. The team was slow to get started and Williams, forcing the play into Hamilton territory, tallied twice early in the first period.

There was no further scoring until the last quarter, and the play see-sawed up and down the field with Williams still holding a slight edge. In the last period, with the Buff and Blue line playing well up in an effort to score, the winners scored two more goals to bring the count up to four.

Boyd, inside left on the Williams team, was the high scorer of the game with two tallies to his credit, and Heine and Earl accounted for one each. Fredman was the outstanding performer for the Buff and Blue.

The summary:

HAMILTON (0)		WILLIAMS (4)
Richards	G.	Mitchel
Fredman	L. B.	Barlo
Boeve	R. B.	Catherall
Ruland	L. H.	Ohly
Normile	C. H.	Williams
Cunningham	R. H.	Smith
Maijgren	O. L.	Mears
Symonds	I. L.	Boyd
Redmond	C.	Heine
Mosher	I. R.	Earl
Gross	O. R.	Horton

Score by periods—

Hamilton	0	0	0	0	—0
Williams	2	0	0	2	—4

Substitutions Hamilton: Chambers for Boeve, Diggs for Richards, Pippitt for symonds, Holley for Mosher. Williams: Roth for Horton, Bird for Catherall, Davidson for Boyd.

Goals Boyd 2, Heine, Earl.

Time of quarters 22 minutes.

HARRIERS WIN EASY VICTORY

Pritchard Back In Line-Up As Continentals Down Rochester

Lead by Captain Walter Pritchard, the Continental cross-country team defeated Rochester on Saturday by the wide margin of 21 to 34, in a meet held over the Rochester course. Pritchard signalized his return to the team after an absence of two weeks by turning in a remarkable performance winning with ease by a wide margin.

The Rochester course over which the Conference Meet will be held on Saturday is characterized by comparatively few grades of any considerable size. The course runs for the most part over even ground which on Saturday proved very muddy, with here and there steep but short grades. It is two miles in length being covered twice in a race, and is further unique in the fact that practically the entire race can be viewed from the grandstand.

Pritchard's supremacy was never threatened throughout the entire race. He allowed the pace to be set by his team mates at the beginning of the race, and then gradually drew apart from the rest of the field to finish far in the lead.

The most exciting struggle was that which took place for second. Poppee and Broughton were running second and third respectively, when Campbell and Strahlbrodt, a Rochester man, overtook them about 300 yards from the finish. Campbell staged a beautiful sprint to beat the Rochester man out for second place. It was an exceptionally close finish, only three seconds seperating the second and fifth men.

The summary:

First, Pritchard, Hamilton; Campbell Hamilton, second; Strahlbrodt, Rochester, third; Poppee, Hamilton fourth, Broughton, Hamilton, fifth; BeHage, Rochester, sixth; Philips, Rochester, seventh, Maly, Rochester, eighth; Clegg, Hamilton ninth; Schneider, Rochester, tenth.

Time: 23 minutes, 19 seconds.

Make Preparations for Union Game Rally

Preparations for the annual football game with Union and its attendant rally will get under way at a meeting of the active members of the Pentagon, Was Los, and D. T. societies to be held at the Delta Kappa Epsilon house at 7:45 o'clock tonight. The meeting will be held for the purpose of discussing plans for the game.

Continuing the custom started two years ago, arrangements will be made to begin practice immediately for the formation of the "U" and the "H" by the undergraduates, and for the singing of the College Alma Maters. A member of the College body will be appointed to secure bus transportation to the game. Plans will also be made for the pep meeting on the Hill Friday night.

Arrangements are to be made for the transportation of the College band, and the College will probably be asked to subscribe in whole or in part to the expenses of the organization. In addition some attempt may be made to discourage a repetition of the assault made on the Union goal posts two years ago.

HAVERFORD ON HILL SATURDAY

Game With Pennsylvania Team Last of Season on Local Gridiron

Hamilton and Haverford will meet on the gridiron for the seventh time when the Pennsylvania team invades the Hilltop Saturday afternoon. This will be the last home game of the season for the Buff and Blue.

Considering their respective performances against Susquehanna University, the teams meeting this week should be about evenly matched. Haverford, however, has won only one game, that from Trinity, 11-6, while Hamilton has won two contests and has met defeat but twice. Haverford has lost three games, bowing to Ursinus, 20-0; Kenyon, 6-0; and John Hopkins, 34-14.

Haverford, with Morris and Conn getting away for long runs, defeated Hamilton, 28-0, at Haverford last year. Morris was graduated, leaving behind him one of the outstanding football records in the East. Conn is captain of this season's Haverford eleven and has been continuing his good work at end.

Haverford will probably line-up in full strength against Hamilton, The probable visiting line-up is as follows: Crawford and Conn ends; Fields and Harvey, tackles; Schram and Barhurst, guards; Masland, center; Logan, quarterback; Tripp and Dothard, half backs and Pleasant, fullback.

Haverford's line averages 183 pounds and will therefore outweigh the Buff and Blue. The Haverford average is enlarged considerably by Fields, tackle, who weighs 265 pounds and is the heaviest man to be met by the Hamilton team this season.

The backfield will average about the same in height and weight.

The Hamilton line-up will probably be little changed from that of last week's contest. The work of the Buff and Blue line in critical moments was encouraging last week and it is hoped that the forwards will continue their excellent defensive work.

NEWMAN CLUB HOLDS MEETING

Members Hear Father McNeil Discuss Religions of Russia

The second bi-monthly meeting of the Newman Club, held at the Chi Psi Lodge, Thursday, drew a record attendance of 30 undergraduates. Francis Crowley, '31, president of the club, presided at the meeting.

The Rev. Father McNeil of the Clinton Parish attended the meeting and spoke on the religious situation in Russia, covering the stages of development from the introduction of the Roman Catholic Church in Russia to the present religious outlook there.

President Crowley read a letter from the Confederation of College Catholic Clubs and appointed William A. Monacelli, '32, the Hamilton College Newman Club News Editor to send monthly copies of the club activities to the Newman News, the official publication of the Federation of College Catholic Clubs.

VISITING TEAM IS ENTERTAINED

Members of Susquehanna Grid Team Dine at Various Fraternities

In accordance with the plan of the Varsity H Club for the entertainment of visiting teams, 28 members of the Susquehanna University football squad were guests at the various fraternity houses after the game Saturday.

The visitors arrived on the Hill by bus Saturday noon and were divided into groups of four or five, each group going to a different fraternity. Sigma Phi, Alpha Delta Phi, Delta Kappa Epsilon, Psi Upsilon, Chi Psi, Theta Delta Chi and the Emerson Literary Society were the houses which acted as hosts. The Susquehanna men did not remain overnight, but left for Binghamton early in the evening, returning to Selinsgrove, Pa., the next day.

This policy of receiving visiting teams in the fraternity houses will be pursued in the future. The Haverford team, which will be here this week-end, has not been heard from as yet in this regard, but it is expected that they will accept the invitation of the Varsity H Club. Later in the year basketball and hockey teams will be received in the same manner if the system proves satisfactory.

NEW HILL CLUB HOLDS MEETING

Edward W. Root, '05, Speaks Before Undergraduate "Arts Club"

Mr. Edward W. Root, '05, was the main speaker at the second meeting of the new 'Arts Club' held last Saturday evening in Emerson Hall. Robert W. Cruser, '31, read some of his poetry, as did William G. Roehrick, Jr., '34.

It was an unaccustomed pleasure for the members to hear Mr. Root discuss art and painting. He had with him about 15 prints of well-known pictures which he displayed and talked about, answering questions and discussing with members particular points of interest in the prints under consideration.

Mr. Cruser read a translation of an old French rondel which he had done, very effectively and pleasingly, into rather archaic English. Before he finished with a "Ballade of True Love," he read "Two Sonnets of Self-Consciousness," which were attempts to put a new element— the dramatic— into the sonnet form.

Mr. Roeherick read several of his poems, mostly lyric in form, which were well received.

The next meeting is to be held at the Sigma Phi Place November 16, when Mr. Cruser will give a paper on "Realism in the Novel."

CLOTHES HINTS

Continuing this new department, we find that we are now able to advise an even later style in headgear. We may boast of a couple of bounding basques on our campus. The bright red tams worn by Puglisi and Kuczycke are attracting a great deal of attention. If continued displays are made they will undoubtedly attract a few bricks as well. The personification of perfect dress, however, is found in that exponent of correctness, Chan Cowles. His complete formal morning wear for Sunday Chapel is worthy of note. In fact it's worth several notes, the whole scale if necessary.

GRADE FACULTY HOUSE GROUNDS

Final Grading and Planting Will Complete Work On New Building

With the construction of a driveway in front of the house and a parking space in the rear, the work on the new Faculty Club is almost finished. The only work that remains is the final grading of the lawn and the planting of shrubbery. The hedge which formerly extended across the front of the lawn has been removed and this has improved the appearance of the house greatly. Besides removing the hedge, a garden has been removed and the space made into parking grounds.

In addition to the work which Mr. Burton's men have done on the grounds, carpenters, who were working on the house all of last week, have changed the interior greatly. The basement of the house has been repaired and made into a game room.

To the left side of the house has been added an addition which houses a library and reading room, and also a suite of rooms for the use of the professors. The dining room which formerly was divided has been made into one room and is much more pleasant.

In the back of the house are the kitchen and rooms for the help. Upstairs there are four rooms which are used as studys and bedrooms combined. Each of these rooms has it private lavatory and a bathroom is provided for general use.

The committee on Grounds and Buildings which is supervising the work feels that it is a great improvement over the former Faculty Club, while the members are very pleased with their new quarters.

AMES TO GIVE TALK ON LEAGUE OF NATIONS

Undergraduates Invited to Attend Meeting In Utica Saturday

Sir Herbert Brown Ames, of Canada and England, will be the speaker of honor at the luncheon and forum to be conducted at 10 o'clock Saturday, at the Hotel Martin by the International Relations Study Club of Utica. Sir Herbert, formerly first financial director of the League of Nations, will speak on "The New World Machinery for Peace: Will It Prevent Another War?" Professor Calvin L. Lewis, who knows Sir Herbert intimately speaks in glowing terms of his attractive personality and his ability as a speaker.

Sir Herbert will be introduced by Professor Milledge L. Bonham, head of the History Department of Hamilton College. Professor Bonham will conduct an open forum.

All Hamilton undergraduates and members of the faculty are invited to attend the meeting. Admission tickets may be procured for $1.25 at Hotel Martin on the day of the luncheon.

GRADUATE STUDENT IS HONORED AT ALBANY

William Stevens Elected President of Class at Law School

William C. Stevens, '29, has recently been elected to the presidency of his class in Albany Law School. Mr. Stevens who is in his first year at law school has been associated during the past year with District Attorney Donald Grant of Oneonta. In that capacity he took charge of all the collection cases and received much valuable experience.

COLLEGE PRESS BOARD IS ACTIVE

Football Advances Are Sent Out By Newly Organized Group

The newly organized Hamilton College Press Board, under the direction of Professor F. Winifred Smith of the College Faculty, has already established itself in wider news circles than have hitherto been associated with its activities. Every week, advances on athletic contests two weeks hence are sent out for pupblication in Sunday papers preceding the Saturdays on which the games and meets are scheduled.

The Press Board sent out nearly 80 advance stories on the Hamilton-Haverford game, scheduled for this Saturday on Steuben field, and for th Traditional Hamilton-Union game of next week, an even larger number of stories is being prepared.

In addition to athletic publicity, the Press Board has sent out personal write-ups to home town newspapers of men on the Hill who have been distinguished by some particular honor or have accomplished something unusual in the College. Articles on the new Chemistry Building are being prepared, while stories concerning the various collections and exhibits in the Biology-Geology Building are being considered.

The Press Board has added to its list of subscribers the Philadelphia Evening and Public Ledgers, the Philadelphia Enquirer, and the Philadelphia Record.

Regular members of the Press Board are Irving Gelman and Howard C. Hosmer, '33. Louis G. Katz and H. Durant Osborne, both '34, are being tried out for positions on the Board.

HILL MEN OFFICIATE AT UTICA GRID TILT

Arthur Winters and Tucker, '31, Receive Praise for Work

Coach Arthur R. Winters of Hamilton College referred the first of a series of football games between the New York Mills A. C. and the Rockies A. C. of East Utica, played at the Utica Stadium Sunday. Mr. Winters will also refere the remaining games of the series, according to an announcement made by the managers of the two teams.

Fred Tucker, '31, served as head linesman at the game, which ended in a scoreless tie.

Commenting on the officials, the Utica Press stated they "handled the contest in faultless style and not a word was raised against their work."

LAUNDRY COMPANY HAS HILL REPRESENTATIVE

Clinton Tailor Will Act As Agent For New Hartford People

Announcement has been made by McPherson's Laundry, Inc., of New Hartford, that negotiations With Phil Lena, the Clinton Tailor, have been completed and that they are now offering their services to the Hill residents at standard rates.

Lena will serve as an agent for the laundry company and will pick up and deliver laundry on the Hill. Each customer will be furnished with a private laundry bag and efficient service is to be one of the aims of the organization.

JONES-MacLEISH

Donald Jones, '24, was married October 25 to Miss Gladys Virginia MacLeish of Winnetka, Illinois.

Mr. Jones, who is a member of Sigma Phi and of Pentagon, lives in Chicago.

PROGRESS MADE IN INTRAMURALS

Seniors Defeat Sophomores; Juniors Beat Seniors In Football

In an interclass football game played Thursday, the seniors defeated the sophomores by the score of 19-13. The game was a "nip and tuck" affair all the way through, and with 35 seconds to play Folley made a sensational run through the entire sophomore team to score the winning tally. Folley starred for the seniors while Scott played well for the sophomores.

The juniors defeated the seniors on Monday in a hard fought game by the score of 7-0. The game was very even throughout, and the only score came when Corby recovered a fumble before it touched the ground, and ran 50 yards for a touchdown. Creigh was outstanding for the juniors, while Folley and Tucker did good work for the seniors. This victory for the juniors put them well on their way to second place in the interclass football standing.

The game scheduled between the juniors and the freshmen for last Friday was postponed until November 10.

SCHOLARS DO SUMMER RESEARCH IN LIBRARY

(Continued From Page One)

Mr. Lennox told Mr. Ibbotson that he expected to return to Clinton some time in the near future and spend the summer here to prepare to write a life of Samuel Kirkland. Mr. Lennox is studying for a doctor's degree at the University of Chicago and is acting as a professor in a western college.

Letters of Steuben Are Valuable

John M. Palmer, retired Brigadier General of the United States Army, spent two days in the early part of September in the Library searching for material to use in a "Life of Baron von Steuben," which he is preparing to write. He found considerable information in some papers, given to the Library by Elihu Root, about Baron von Steuben, who laid the cornerstone in 1793 for the first academic building on the Hill—the Hamilton Oneida Academy — situated between South College and the Chapel, where the stone marker now lies.

General Palmer stated that he secured many valuable points from the Steuben papers. His investigations settled one disputed question — the date of Steuben's birth. He considered the letters so valuable that he had photostat-reproductions of them made. Mr. Palmer is the author of a book recently published, entitled, "Washington, Lincoln, Wilson — Three War Statesmen."

SIX GAMES ON RINK SCHEDULE

Middlebury First Opponent; Games to Be Played On Hill

Final arrangements for the 1930-31 ice hockey schedule have not yet been made by the Department of Physical Education, but six engagements are on the card at present.

All of the games on the tentative schedule will be played on the Hill. Weather permitting, the first game will find the Buff and Blue combination facing the Middlebury sextet. Following the Christmas recess, on January 10, Vermont will invade the Sage rink. The next encounter will be with the Massachusetts Aggies on January 31. The first game in the new semester will be with St. Lawrence, February 7. Two weeks later Union will play here, and on February 28 the season closes with an engagement with the Colgate skaters.

Amherst will probably play the Hill team on February 14, but the place of the game has not been decided. Three dates are still open at present, January 3, January 17, and January 24.

TWENTY-SIX CREEDS REPRESENTED ON HILL

(Continued From Page One)

members of the Church of Christ in College. The Class of 1933 has the two Unitarians, the one member of the English Lutheran Church and the only follower of the Church of Ethical Culture in residence here. The Class of 1934 has, among its members, the single members of the Friends', Orthodox, Disciple, Quaker, Eastern Greek Orthodox, and the C. and M. Alliance Churches and of the Temple of Israel and the Church of England.

Ten Are Unaffiliated

The Community, Universalist, and Christian Science denominations are each represented at Hamilton College by a freshman and a sophomore. The Lutheran and Dutch Reform Churches each sent a junior, two sophomores, and four freshmen to college here, while the Reformed Church sent two seniors, one junior, six sophomores, and nine freshmen. The remaining religious faction, the Jewish, has three members in the fourth and second, and four members in the third and first year classes. Ten other undergraduates neither have nor prefer any organized form of worship.

SURVEY GIVES HILL ANNUAL HONOR RATING

(Continued From Page One)

partments. The next highest percentage, 90, was given to the mechanical considerations of the publication, when it received 235 out of a possible 265 points. The activities department and the general plan and theme of the book were tied for the next position, each marked 87 per cent, being granted 95 out of a possible 110 and 175 out of 200 points respectively.

The department of administration and faculty ranks next with 83 per cent, having been given 50 out of 60 possible points. The sections devoted to school life and to album and classes come next with 35 out of 45 and 90 out of 120 points for percentages of 78 and 75 respectively. The lowest rating is given to the editing and make-up department, which received only 75 out of the 125 points given for a percentage of 60.

The only other college annual in New York State that received a second class honor rating in this survey was that of Cornell University. Rochester and Syracuse are the only two institutions in New York to find their year books in the All-American Honor Rating Class. Fred L. Kildow of the department of journalism at the University of Minnesota judged the publications.

Friday
Inter-class football game, Freshmen vs. Sophomores, at 4:15 o'clock.
Saturday
Football with Haverford College at Clinton, 2 o'clock.
Soccer with St. Stephens College, at Annandale, N. Y.
Cross-country Conference at Rochester.
Address of Sir Herbert B. Ames before Political Science Club at Delta Kappa Epsilon House at 7:30 o'clock.
Sunday
Chapel preacher, Rev. Arthur L. Swift, New York City.
Tuesday
Interclass cross-country Scratch Meet at 4:30 o'clock.

ST. STEVENS TO FACE HILL TEAM

Soccer Squad Will Journey to Annandale for Last Game of Season

Journeying to Annandale Saturday, the Buff and Blue soccer team will meet St. Stevens in the final game of the season. The Continentals have been defeated four times this year and have only one victory to their credit.

Playing St. Stevens at the close of the season last year, the Buff and Blue booters turned in by far their best performance of the season to gain their only victory, 5-2. While St. Stevens has a small student body, the college has no football team and fall sports activities are centered about soccer and cross-country.

Coach Gelas has not yet been able to discover the best combination in the line-up, and again Saturday, as in the Syracuse game, Ruland was shifted from his halfback berth to the line and Pippitt took his place in the backfield. Holley saw service for the first time Saturday and turned in a capable performance on the line in the latter part of the game. As usual, assignment at goal was divided between Richards and Diggs.

With the exception of the Syracuse game, the Buff and Blue offensive has shown a decided lack of punch and has been able to score only six goals during the season. The line has not shown the team work displayed by most of its oponents, and has missed numerous chances to score.

NEW CHEM. LAB. IS IS WELL-EQUIPPED

(Continued From Page One)

The cellar is entirely occupied by two stock rooms and a long passageway, making it possible for each laboratory to be equipped with its own stock.

Off the organic laboratory there is a large shower for use in case of accident with acids or any inflamable material. In the hoods a new method of experimentation with hydrogen sulphide has been installed. In place of drawing the gas directly from the storage tanks, the experiment requiring the use of this substance is placed in a container running along the rear of the hood. This is then closed and the gas let in. It is expected to prove much more efficient than the former method.

Has Ample Light and Space

The rooms are ventilated and heated by the "univent" system. This is regulated automatically, controlling air warmed by passage over steam pipes. Although some difficulty has been experienced, the system is adjustable and the trouble easily remedied.

The building as a whole has been built with the purpose in view of ample space, light and adequate equipment. The difficulties presented in its construction were corrected in large part by the study of the three million dollar chemical laboratory connected with Cornell University.

ALUMNI NOTES

Robert Maddock, '27, was graduated from the Denver Medical College last June. Mr. Moffat was married in September and is now in San Francisco, California, practicising medicine.

* * *

Frederick J. Moore, '32 is spending the year in Zanzibar, South Africa, as a tutor to a small boy. He will return to the Hill next year with the class of '33.

* * *

Joseph J. Ferlo, '30, is now a student in Harvard Law School.

SPORT COMMENT

The football team waited a long time to make its first point after touchdown this year, and no better occasion could have been found than in Saturday's game. With Susquehanna one point to the good, the successful pass from Rienzo to Fisher that tied the score more than compensated for the failures earlier in the season.

* * * *

Comparative scores this week upset the dope on comparative scores from last week. Union looms as one of the toughest spots on the schedule after holding Williams to 14 points. Williams defeated Hobart 65-0, and Hamilton was able to score only one touchdown against Hobart.

* * * *

Scores point a little more favorable toward a successful conclusion to the soccer season. R. P. I. defeated St. Stevens 3-1 Saturday, gineers defeated the Buff and Blue the same score by which the Ensquad. Thus the team should stand a good chance of winding up the season with a victory at Annandale Saturday.

* * * *

Another angle on the subsidation question in college athletics appears in the opinion held by the editors of several college newspapers that colleges should direct payments to their athletes instead of employing the indirect system of remuneration now in use at many institutions.

Editors of year books, papers, and other publications are paid directly, and since "honesty is more important than amateur standing," as one editor claims, why not employ this system in athletics as well?

It is said that this plan might also bring uniformity in "salary," and thus eliminate the advantage held by the large colleges and universities with well-supplied sinking funds.

BUFF AND BLUE TEAM TIES SUSQUEHANNA U.

(Continued From Page One)

plunges and an incomplete pass Kingsley kicked outside on the 10-yard line. Fisher partially blocked Susquehanna's punt from behind the goal line and Morris recovered for the Hill on the visitors' 15-yard line.

Rienzo smashed through for 8 yards to the 3-yard line. Two Hamilton plunges failed but finally the Buff and Blue gained its first down. Crowley went over for the score. The tieing point was neatly acquired, a fake kick ending in a pass from Rienzo to Fisher.

Buff and Blue Line Braces

Susquehanna showed brilliance and determination as well as unconquerable spirit on the kick-off. Hamilton kicked and Glenn returned the ball to mid-field. Glenn and Moser completed a lateral which netted 30 yards and a first down. Moser made another first down in two attempts and a third soon afterward. Hamilton's line held firmly within the 3-yard line before Moser came through with that last first down.

The Buff and Blue forwards braced again and the visitors, though they were only six inches from the line at one time, were held back. Hamilton received the ball on downs, punted and then gained possession when a long Susquehanna pass was grounded over the goal line. The game ended with the ball in Hamilton's possession.

The Buff and Blue made 12 first downs to the visitor's ten and gained 208 yards from scrimmage and Susquehanna 222. The local team was more successful in passing, gaining 35 yards by completing two forward passes out of ten attempted. None of the Susquehannas passes were completed although the visitors intercepted two of Rienzo's tosses for long gains.

Line-up and summary:

HAM. (7)	Pos.	SUS'A U. (7)
Wilson	L. E.	Adams
DeSormo	L. T.	Extrom
Conger	L. G.	Auchmuty
Rodger	C.	Garman
Sellers	R. G.	Witkop
Estabrook	R. T.	Hudkins
Fisher	R. E.	Spigelmeyer

Touchdowns, Moser, Crowley. Points after touchdown Moser, Fisher. Substitutions Hamilton: Jones for Fay, W. Morris for Jones, Bremer for Sellers, Hutchinson for Wilson, Wilson for Hutchinson. Susquehanna: Rishel for Sprout, Berger for Witkop, Winters for Hudkins.

Referee VanderVeer, Syracuse. Umpire Olney, Cornell. Linesman Graham, Springfield.

Time of periods 15-minutes.

CAPT. FARMER SPEAKS BEFORE HILL CLUB

(Continued From Page One)

lacks modern business methods and labor-saving machinery. In spite of the starving condition of the country, a large supply of grain is being exported. This is obtained by a system of cooperative farming and collectivising on the five pear plan.

Young Men in Russia are educated in Communist universities and are then sent into all the leading nations to spread the Communist principles. America ranks third in the number of Communists which it harbors.

The only commodity which the government guarantees to the people is bread. Enormous bread lines are formed every day. Each person must hold a card to show the amount of food which he has received.

Captain and Mrs. Farmer are at present guests of Professor and Mrs. Nelson C. Dale. Their home is in Lakeville, Conn., and they have only recently returned from abroad.

GERMAN CLUB HOLDS MEETING

Members Choose Officers at Gathering at Home of Dr. Hauch

At an organization meeting held at the home of Professor Edward F. Hauch, Monday evening, the members of the German Club discussed plans for the college year and elected Ralph J. Kuczycke, '13, president; Walter H. Pritchard, '32, vice-president, and William Sloane, '32, secretary and treasurer.

The discussion of what plan the meetings would follow this year brought up the suggestion that the club make a study of contemporary German life, including drama, music, poetry, politics, sports and the like. In connection with this, it was decided that several members are to give short talks in German at each meeting.

It was also decided that several meetings will be left entirely to the management of three members who will make all advance preparations for the meetings. The next meeting will be in the charge of the three newly-elected officers.

A more definite program for the year will be chosen by the Executive Council, consisting of Professor Hauch, Mr. Wunderlich, and the officers, at a meeting tonight.

The next meeting of the German Club will be held at Emerson Hall around November 21.

ITURBI APPLAUDED BY HILL AUDIENCE

(Continued From Page One)

pretation more colorful. His enchanting rythmic effects and sense of tone values are of the highest order.
